Areej Fathy

BI Developer - Data Analyst

areejfathy17@gmail.com +20 106 7090 148 Cairo, Egypt areej-fathy areejfathy

Professional Summary

Data Analyst and BI Developer with hands-on experience building interactive dashboards and reporting systems using Power BI, Tableau, SQL, and advanced Excel. Completed an intensive Business Intelligence training track at ITI covering data modeling, ETL, and SQL Server reporting (SSIS/SSRS), and delivered freelance dashboard and automation projects across retail, project tracking, and operations use cases. Brings a distinctive cross-functional edge from prior experience as a Payroll Officer, pairing hands-on HR/payroll domain knowledge with technical data skills. Detail-oriented and fast learner, focused on turning raw data into clear, decision-ready insights.

Skills

• **BI & Visualization:** — Power BI (Power Query, Data Modeling, DAX), Tableau, Advanced Excel (Pivot Tables, Power Query, VBA/Macros), KPI Reporting, Dashboard Design

• **Data Engineering & Databases:** — SQL (Basic to Advanced), SSIS, SSRS, SSAS, ETL Processes, Data Warehousing, Star Schema Modeling, NoSQL/MongoDB

• **Programming & Analysis:** — Python (Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn), Market Basket / Association Rule Analysis, XML

• **Domain Expertise:** — Payroll & HR Analytics, Attendance & Time-Tracking Systems, Data Cleaning, Report Automation

• **Professional Skills:** — Stakeholder Communication, Analytical & Critical Thinking, Requirements Gathering, Time & Task Management

Professional Experience

Business Intelligence Developer Intern | **ITI - Information Technology Institute (Intensive Code Camp)** March 2025 – July 2025 | Tanta, Egypt

- Completed an intensive hands-on training track in Power BI, Tableau, SQL Server, Python, and advanced Excel, applying skills across end-to-end data projects covering modeling, reporting, and visualization.

Graduation Project - Online Examination Management System
- Designed and built a system to manage students, courses, exam generation/correction, and reporting, using SQL Server, SSIS, SSRS, Power BI, and ERD-based data modeling.

Tools: SQL Server, SSIS, SSRS, Power BI, ERD, ETL, Excel.

Sales Performance Dashboard - Retail (Sample Superstore Dataset)
- Built an interactive Tableau dashboard analyzing sales performance across regions, product categories, and customer segments.

Mobile Device Sales Performance Analysis
- Analyzed sales performance by product class in Excel using Pivot Tables, Pivot Charts, and Slicers to surface category-level trends.

Tools: Microsoft Excel (Pivot Tables, Pivot Charts, Slicers, Formulas)

Market Basket Analysis - Egyptian Grocery Transactions
- Applied the Apriori algorithm and Association Rules (Python, mlxtend) to identify product purchase patterns and co-buying trends.

Tools: Python (TransactionEncoder, Apriori algorithm, Association Rules (mlxtend))

Freelance Projects

Excel-Based Performance Evaluation System (Aramco-affiliated engagement)
- Developed a centralized system to track and visualize departmental performance across multiple branches using Power Query, data model relationships, Pivot Tables, and calculated measures.
- Automated tracking of frequency-based tasks (monthly, weekly, quarterly) and built an interactive management KPI dashboard.

Tools: Microsoft Excel, Power Query, Data Model (Relationships), Pivot Tables, Calculated Fields / Measures, Data Validation

Customer Orders & Sales Performance Dashboard
- Designed and built a custom database structure to manage customer requests, ensuring accurate and organized data entry through dropdowns and validation rules.
- Developed an automated, interactive dashboard that updates in real-time, providing KPIs on daily/monthly targets, product performance, customer sources, deal stages, and call quality.

Tools: Excel (Power Query, Pivot Tables, Charts, Slicers, Data Validation)

Power BI Project & Performance Tracking Dashboard (Ma'aden-affiliated engagement)
- Developed a dynamic performance and project tracking dashboard for Ma'aden to monitor execution progress, schedule performance, EHSS compliance, and Capex portfolio analysis across multiple departments.
- Built the complete data model from scratch, performed data transformation and cleansing, and created advanced KPI measures to support executive decision-making and real-time reporting.

Tools: Power BI, Power Query (M Language), DAX, Data Modeling (Star Schema), Data Transformation, KPI Development, Interactive Dashboard Design.

Quail Farm Management System (Team Project)
- Contributed to an Excel-based system enabling automated tracking of production cycles and alerts for critical farm operations, using advanced formulas, data validation, and VBA.

Tools: Microsoft Excel, Advanced Formulas, Data Validation, Dashboard Design, Macros, VBA

Drug Dispensing Management System
- Built an automated Excel system spanning approximately 70 drug-specific sheets with a VBA-based search tool for quick lookup and management of patient dispensing records.

Tools: Excel (Data Validation, VBA).

Work Experience

Payroll Officer | **Needle Craft** | **Egypt** August 2024 – January 2025
- Managed end-to-end payroll operations for 1,500+ employees across multiple nationalities, ensuring accurate and timely salary processing
- Analyzed attendance, overtime, and leave data to validate payroll inputs and reduce calculation discrepancies.
- Prepared payroll reports and validated salaries, bonuses, and deductions for management review.
- Coordinated with HR and Finance teams to process resignations and final settlements.
- Maintained employee time-tracking systems, converting raw attendance data into actionable payroll insights.

Education

B.Sc. In Computer and Information Sciences September 2019 – May 2023
Faculty of Computers and Information, Menoufia University
- GPA: 3.38 • Graduation Project Grade: A+
