# Areej Fathy

BI Developer - Data Analyst

areejfathy17@gmail.com +20 106 7090 148 Cairo, Egypt linkedin.com/in/areej-fathy

Portfolio Areej-Fathy

## Professional Summary

Data Analyst and BI Developer specializing in **Power BI, SQL, Excel, Power Query, DAX, Data Modeling, and Microsoft BI Stack (SSIS, SSRS, SSAS)**. Delivered **24+ client-focused analytics and business intelligence projects**, building **end-to-end BI solutions, dashboards, and KPI reporting systems**.

## Professional Experience

**Freelance Data Analyst & BI Developer** Jul 2025 – Present | Remote

Delivered **24+ analytics, reporting, and dashboard projects** for real clients via **Upwork (team-based projects), Mostaql, and Khamsat**.

**Projects:**

**Training Quality Evaluation & BI Reporting System – Federation of Egyptian Industries | GIZ Engagement (Power BI)**

- Built an end-to-end BI solution to digitize and standardize the training quality evaluation process across **240+ facilities and ~5,000 students**.
- Gathered business requirements and designed a structured data collection and reporting workflow with validation rules, duplicate prevention, and role-based access controls.
- Developed data transformation workflows using **Power Query**, designed the data model, and developed **30+ DAX measures** for business KPIs and performance analysis.
- Developed **10+ role-based Power BI dashboards** covering evaluation performance, achievement rates, facility insights, and management reporting.
- Automated report generation and published the solution to **Power BI Service with scheduled refresh** for continuously updated reporting.
- Presented the solution to key stakeholders including the **Ministry of Education, GIZ, and Swiss Cooperation**.

**Construction Workforce & Project Cost Analytics System (Excel)**

- Built a centralized workforce and payroll analytics system integrating employee, project, attendance, and transaction data through **Power Pivot, Power Query, and DAX.**
- Developed **20+ DAX measures** and **3 interactive dashboards** to automate payroll calculations, project cost allocation, workforce analytics, and operational KPI reporting across **10 departments**.

**Excel-Based Performance Evaluation System (Aramco-affiliated engagement)**

- Built a centralized performance evaluation system across **4 departments**, enabling standardized data capture, automated target achievement tracking, and task completion scoring.
- Leveraged **Power Query, Power Pivot, and executive dashboards** to provide management with real-time visibility into completion rates, achieved points, pending tasks, and departmental performance.

**Customer Orders & Sales Performance Dashboard (Excel)**

- Built a centralized sales tracking system with validated data-entry workflows, automating customer request management and sales activity tracking.
- Leveraged **Power Query and interactive dashboards** to monitor sales targets, product performance, lead sources, deal stages, and call quality in real time.

**Power BI Project & Performance Tracking Dashboard (Ma'aden-affiliated engagement)**

- Developed a project portfolio analytics solution to monitor **execution progress, schedule performance, EHSS compliance, and Capex initiatives** across multiple departments.
- Built the complete **data model, Power Query transformations, and DAX KPI measures**, enabling executive-level reporting and data-driven decision-making.

**Quail Farm Management SystemExcel (Team Project)**

- Contributed to developing an automated system for tracking **production stages** and **farm operations**
- Implemented **VBA-based automation** and reporting features for monitoring and operational alerts.

**Food Sales Analytics Dashboard (Excel)**
- Analyzed **sales performance**, customer behavior, and product trends.
- Identified **top products**, **key customers**, and **high-performing categories**.

**Drug Dispensing Management System (Excel, VBA)**
- Built an automated drug dispensing management system across **70+ drug-specific databases**, featuring a **VBA-based search tool** for fast record retrieval and patient.

**ITI - Business Intelligence Developer | Information Technology Institute, Intensive Code Camp (ICC) 4+ months** Mar 2025 – Jul 2025

**Projects:**

**End-to-End BI Examination Management System | ITI Graduation Project**
- Delivered a complete **Business Intelligence solution** covering **Database Design, Data Warehouse, ETL, Reporting, and Dashboard Development**.
- Engineered **29 SQL Server tables**, **28+ stored procedures**, and a **Star Schema Data Warehouse** to support examination analytics.
- Developed **SSIS ETL pipelines** and **6 SSRS operational reports** for automated reporting and data integration.
- Built **25+ Power BI dashboards**, including data modeling, KPI tracking, drill-through analysis, and advanced **DAX** calculations.

**Airline Operations & Flight Performance Dashboard,** Power BI
- Designed a scalable analytical solution using **Power BI, Power Query, and dimensional modeling** to analyze **1M+ flight records**. Delivered interactive dashboards that highlighted delay drivers, airline performance, airport activity, and operational trends, supporting data-driven decision-making.

**Superstore Sales Performance Dashboard (Tableau)**
- Built interactive Tableau dashboards to analyze sales, profit, customer behavior, and regional performance. Developed KPI-driven visualizations using maps, trend analysis, product insights, and interactive filtering.

**Mobile Store Sales Analysis, Excel Dashboard**
- Built a sales analytics solution analyzing **160M+ EGP** in revenue using Excel, Power Query, and Power Pivot. Created KPI-driven dashboards to track **Sales, Profit, COGS, and Profit Margin %**, uncovering insights into branch performance, product profitability, and sales trends.

**Market Basket Analysis - Egyptian Grocery Transactions**
- Identified product purchase patterns using **Apriori** and **Association Rules**. Uncovered cross-selling opportunities through support, confidence, and lift analysis.

**Payroll Officer | Needle Craft** August 2024 – January 2025 | Egypt

- Managed end-to-end payroll operations for 1,500+ employees across multiple nationalities, ensuring accurate and timely salary processing
- Analyzed attendance, overtime, and leave data to validate payroll inputs and reduce calculation discrepancies.
- Prepared payroll reports and validated salaries, bonuses, and deductions for management review.
- Coordinated with HR and Finance teams to process resignations and final settlements.
- Maintained employee time-tracking systems, converting raw attendance data into actionable payroll insights.

## Skills

• **BI & Visualization:** — Power BI (Power Query, Data Modeling, DAX), Tableau, Advanced Excel (Pivot Tables, Power Query, VBA/Macros), KPI Reporting, Dashboard Design

• **Data Engineering & Databases:** — SQL (Basic to Advanced), SSIS, SSRS, SSAS, ETL Processes, Data Warehousing, Star Schema Modeling, NoSQL/MongoDB

• **Programming & Analysis:** — Python (Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn), Market Basket / Association Rule Analysis, XML

• **Professional Skills:** — Stakeholder Communication, Analytical & Critical Thinking, Requirements Gathering, Time & Task Management

## Education

**B.Sc. In Computer and Information Sciences** September 2019 – May 2023
Faculty of Computers and Information, Menoufia University
• GPA: 3.38 • Graduation Project Grade: A+

## Languages

Arabic : Native English : Professional Working Proficiency
